\$2.00 A YEAR IN ADVANCE

ELKS TO GIVE FREE PICTURE SHOW

The executive committee of the Carbon Elks who are looking after the Christmas treat for the children of Carbon and district, met this week and have decided to give the children of Carbon and district a real treat this year. The date of this entertainment has been set for Monday evening, December 16, and it will take place in the Farmers' Exchange hall in the form of a free picture show for the kiddies and following this each child present will receive a bag of Christmas treats. Nothing is being left undone to make this affair a success and every child in the neighborhood and surrounding district is cordially invited to be on hand for the occasion.

COMEDY-DRAMA "STAR BRIGHT" TO PLAY TOMORROW NIGHT

The date of the play "Star Bright" which is being presented in the Elk's hall, Carbon, is rapidly approaching and is only another day away. The date is December 6th and the director has announced that the cast is now prepared to play before their audience at this date. The play, a comedy-drama, is a good one and in the past the local performances of this nature have been well patronized by the people of Carbon and district and it is to be hoped that this year the result will be the same or better. After the play a dance will be held in the hall and the dancing enthusiasts will be assured of a real jolly time. Remember that the play is tomorrow (Friday) night and that the performance starts sharp at 8:30 p.m. Don't be late and miss the opening scene. Be early and be sure of a seat.

Teacher—You'll have to stay in after school and work out your geography lesson. You didn't locate a single one of the cities.
Wife—I can't locate them, but I know how to tune in on the whole blamed lot.

ALBERTA ELECTION MAY BE HELD IN JUNE 1930

When the Liberals from Calgary and other points throughout southern Alberta met in that city a couple of weeks ago to greet Prime Minister W. L. Mackenzie King, they were practically assured that there would be no federal election in 1930, according to advices received by the Calgary Herald. The rumor has also been going the rounds that the provincial contest might be expected in June 1930, the source of the information coming from reliable U.F.A. sources at Edmonton, it is said.

Regarding the provincial elections, there are many prominent men who hold the opinion that there may be a plebiscite taken on the question of beer halls in the province. It is understood that prohibition forces have been organizing for the purpose of appealing to the government at the next session, for a promise of a vote on the beer hall question.

BUCKINGHAM HOCKEY PIC. TORIAL MAKES APPEARANCE

The editor has just received a copy of the Buckingham Hockey Pictorial which has just been issued, and is published by George King, 84 Victoria St., Toronto, well remembered as compiling the elaborate History of Hockey several seasons ago. The present pictorial which is in a miniature form of the previous one, nevertheless, a very interesting one inasmuch as it is featuring a complete history and series of pictures of Stanley Cup Champions (world's professionals) from its inception in 1894 to the present date, also the Allan Cup Champions from 1909 to the present time and the Memorial Cup Champions from 1919 to present date, there is also the latest professional hockey rules besides a variety of other interesting features that are worth while to the average hockey fan.

LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. S. J. Garrett and son motored to Calgary last week.

Miss Jackson, who has been attending Mrs. Knisley during her relapse, left last Wednesday for her home in Calgary.

The Salvation Army is making its annual appeal to the people of Carbon this week.

A son was born to Mr. and Mrs. J. A. Hudson on November 21st, at the Holy Cross Hospital, Calgary.

The Carbon United Sunday School will hold their annual Christmas tree and concert in the Farmers Exchange hall on Thursday, December 12th.

Miss Belle Smith was a Calgary visitor on Tuesday and returned Wednesday night.

Born, on Wednesday, Dec. 4th, to Mr. and Mrs. T. J. Ramsay, a daughter

A new school district has been formed west of Carbon by the name of Ardlebank and it will comprise part of the former school districts of Avondale, Roseview and Simcoe. The vote was taken last Wednesday at the home of Mr. and Mrs. A. Shaw and the question carried unanimously.

There has been a rumour circulating that the play "Star Bright," which is being staged in the Elk's hall on Monday night will be followed by a dance at which an admission charge of \$1.00 will be made. It is true that a dance will follow the performance, but the charge for this will only be 50¢ for gentlemen and ladies free.

Miss Martha Gray was a Calgary visitor last Saturday.

The weather has been a little colder and the skating ice at the rink is about ready for use. The curling ice is well under way but it has not been cold enough to make much ice at a flooding and it will be a few days yet before we can curl.

GENERAL MEETING OF HOCKEY CLUB HELD SUNDAY AFTERNOON

A general meeting of the Carbon Hockey Club was held in the Elk's hall on Sunday afternoon and from the list of players three teams were chosen with eleven players each. The three teams will comprise a local league and it is expected that playing will be commenced immediately, providing that the ice is in shape. It is the intention to have the local teams as near equal as possible so as to develop better hockey and a committee has been appointed to re-arrange the teams if necessary after two games have been played by each team.

A motion was passed whereby each player shall contribute 50¢ towards the purchase of an additional set of hockey pads for the goal tender. It was also decided to make a small admission charge of 15¢ for adults and 10¢ for children for the local games.

The securing of the rink for hockey practices was discussed and the matter was left in the hands of the local team managers to make arrangements with the local rink manager.

SCHOOL REPORT FOR NOVEMBER

GRADE IA—Betty Willson, Pauline Schoepple, Marjorie Shale, Ellen Hedenberg, Ralph Atkinson, June Collins, Lillian Dixon.

GRADE IB—Mary Mayers, Zena Trumbly, Arbor Collins, Duncan Code, Boilek Sobyski, Albert Batsch, Lawrence Trepanier.

GRADE II A—Jimmie Gouldie, Margaret Wheat, Elaine Torrance, Isabel Gouldie, Milly Hunt, Bill Code, Irene Saltes, Ethel Kaehn, Mary Shyka, Mae Moore, Harvey Barker, Bernard Moore, Gordon McGregor, Annie Lemay, Billy Rogers.

GRADE II B—Albert Bramley, Anie Shyka, Irene Grenier, George Moore, Bill Heath, Lucille Lemay, Victor Kaehn, Edward Batsch, Absent for tests Robert Ramsey.

—Don't forget the play "Star Bright," showing in the Elk's hall on Friday (tomorrow) night.

The Mounting Toll of Accidents

"The problem now is to speed up the adjustment of humanity so that it will keep pace with the rapidly increasing development of machinery."

In these words a writer in a recent United States health publication concludes an article dealing at some length with the steady and alarming increase in the number of deaths resulting from accidents. Illustrative of this need for the whole human family to adjust itself to this changing age, it is pointed out that whereas adults rarely are the victims of fatal scalding in the home, this type of accident is not at all uncommon among children who have not learned to adjust themselves to the ordinary habits of domestic civilization.

While most public attention centres around the automobile, because from it result more accidental deaths than from any other one thing, and because accidental deaths associated with the automobile have increased so rapidly during recent years, this emphasis tends to overshadow all other hazards and may lead parents to feel that children are perfectly safe when out of the streets and in the home. As a matter of fact, the writer in question points out, the mortality toll from other accidents is more than double that from automobiles.

Indicating the enormous death toll from accidents, figures are quoted showing that in the single state of Illinois, last year, there were more deaths from accidents than the combined Union and Confederate armies lost in the bloody battle of Gettysburg, in the Civil War. Further, that in the last seven years accidents in that one State accounted for more deaths than the United States lost in soldiers "killed in action" in the Great War.

Coming nearer home, we learn from figures compiled by the Provincial Fire Commissioner for Saskatchewan, and extensively published in the weekly press of this Province, that during the first nine months of this year more persons lost their lives through the improper and careless use of gasoline and coal oil than occurred from similar causes in any complete year for five or six years past.

All of which only serves to reinforce the opinion expressed in the article from which we have quoted that "practically all accidents happen because the people involved are out of tune with their environment. Sometimes the consequences are fatal to the person who is out of tune, and sometimes they are fatal to innocent people." In regard to traffic accidents the view is expressed that these will come under control "just as soon as people generally learn to adapt themselves to the new machine age."

Too much emphasis, perhaps, is laid on the need for more prohibitive legislation and more stringent regulations, and too little upon the education of the people, and especially children, in the exercise of care and plain common sense. Governmental and municipal enactments and regulations there must be, but it has been amply demonstrated that speed limits alone will not stop reckless driving of motor cars, "stop" signs will not prevent level crossing accidents, the label "Poison" does not deter a young child from drinking a harmful drug carelessly left within its reach, while matches and loaded firearms lying around still have an irresistible attraction for all youngsters.

The whole country is crying out for more good roads, hard-surfaced, all-weather highways. No doubt they are an economic necessity and should be provided to the extent that the community can afford to pay for their construction and continued maintenance. But, until the human family readjusts itself to this new age, every additional mile of good road likewise adds to the accident and death toll because people regard them as an additional incentive to "speed up" and take risks they would not dare to take on an unimproved highway. Statistics prove conclusively that more accidents occur on the better roads than on the inferior and very poor ones.

Not restrictive laws and regulations, not more hard-surfaced highways, nor more safety devices on and about machinery, good and desirable as they are, constitute the best protection aga'inst accidents and avoidable death. Real and the most effective protection rests with the individual human element. Adjustment to the age in which we live must be speeded up if this blot and terrible economic loss of the mount'ng death toll from accidents is to be removed from our present-day civilization.

The London Chamber of Commerce now has more than 100 women members, most of whom, as heads of commercial houses, have an income of more than \$10,000 a year.

Wide Use Of Combines

In 1928, states the Department of Agriculture, comb'nes were used in Western Canada to harvest wheat, oats, barley, spring rye, fall rye, flax, sweet clover, and bromo, from Winnipeg to the foot-hills of the Rockies and from the International Boundary to Township 80 in the Peace River District. The number used in 1929 showed a large increase over 1928.

He: "If we get married do you suppose we could get credit at the grocer's?"

Grain Act Being Rewritten

When Completed Meetings Will Be Held To Receive Suggestions

Steady progress was being made in rewriting the Canada grain act. E. D. Ramsey, chairman of the Board of Grain Commissioners stated in Winnipeg. As soon as it is completed, a series of meetings will be held in Montreal, Toronto and at one or more points in each of the prairie provinces. Suggestions will be received with the expectation that a bill satisfactory to those most interested can be ready for the opening of the Dominion Parliament. The act is being rewritten by Col. O. M. Biggar, in Ottawa. So many changes were made in the act last session, that it was believed better to have the whole act re-drafted. No radical changes in principle are being inserted in the bill. The House of Commons went very thoroughly into that last spring.

The changes made in the act preventing mixing in the statutory grades had not had much effect this year because the crop did not lend itself to mixing even if there had been no law aga'inst it, Mr. Ramsey said. Almost 90 per cent. of the wheat crop was inside statutory grades and 80 per cent. graded number one or number two.

RHEUMATIC PAINS

Cannot Be Rubbed Out — the Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism come together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are overcome and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who says:—"For some years I was so badly troubled with rheumatism that I could hardly walk, and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Kind Of Bait

The finger of an old kid glove is great fishing bait, in the opinion of Charles Seiblo, Amsterdam, N.Y. Twenty-three black bass, on display at a local sports store, were taken in one day from Scheharie Creek by this method, according to Seiblo. They average two and one pounds and were more than eleven inches long.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

More than 23,000 persons were reported as missing to the New York police department last year, and 97 per cent. were located.

PALPITATION

Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart.

"I felt very weak and tired so began to take

and used about six boxes and have found them help me a great deal, and am very thankful for having found such a good medicine."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Radio Roads Across Sea

New Development Would Upset Science and Art Of Navigation

Remarkable claims are made on behalf of the new radio development perfected by M. Lott, and just announced to the French Academy of Sciences. He proposes, by means of radio towers on the European and American Atlantic coasts, and electric waves transmitted across the sea, to guide ships and planes surely and safely between the two distant continents. In this way he hopes to supersede the necessity of charts and compasses, navigators and pilots. Their place will be taken by radio operators and interpreters, who will send the guiding beams from shore to shore and interpret them when they are receiving. The appointed routes will be changed as circumstances require, and in accordance with traffic and weather conditions as these are gauged by a skilled pilot on land.

These proposals have created a sensation in Europe where announcement has already been made that the first four radio towers will be erected within two years. Similar devices have already been tried on a smaller scale and proved effective for the direction of aircraft. Radio roads across the sea are thus both a possibility and a probability. They would upset the science and art of navigation, first developed by the Phoenician traders thousands of years ago and not materially modified since their time. This is another startling and unforeseen consequence of the arrival of the vacuum tube, an English discovery, by the way, whose glowing filament is becoming the master magician of our age.

A Mixed Farming Country

Saskatchewan Increasing Dairy and Poultry Output

While the fame of the Province of Saskatchewan rests principally on the fact that within its boundaries more than half of the wheat grown in all Canada is produced, it is also a very important dairying and mixed farming country. The province supplies a substantial quantity of butter for the bread it produces. In October of this year the output of creamery butter was 1,191,895 pounds, an increase of 400,928 pounds or 50.7 per cent. over the production in the corresponding month last year. Saskatchewan is also an important factor in the egg and poultry market. Many a prize turkey that graces the dining table in homes in Eastern Canada and the United States at Thanksgiving and Christmas is the product of Saskatchewan. Practically all the eggs and poultry from the farms of the province are marketed by the Saskatchewan Egg and Poultry Pool, the directors of which are all women, farmers' wives, except one mere man.

Useful In Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Shops On Atlantic Liner

Fully Equipped Store Now Accommodates Passengers On "Aquitania"

An innovation on the British Atlantic liner "Aquitania" takes the shape of a tailor's, hoseiry, and general shopping centre. Until now the barber's shop has been the place on board ship where many "side-lines" beyond those belonging to the barber's trade might be found. Now there is installed on the "Aquitania" a fully equipped West End store, in which the traveller in one direction can fit himself out for his tour in Europe, and they who have been too hurried to give time to clothes can replenish their wardrobes before returning. The mayor of Southampton was the first customer, and bought two neckties. One of these he sent as a present to the Mayor of New York with the message, "We are sending you a bit of Regent Street."

Scandalized Judge (to enraged attorney)—"Silence! I fine you five dollars for contempt of court."

Enraged Attorney (planting down \$20 bill)—"Five dollars doesn't begin to express my contempt for this court."

Good for Toothache—Minard's Liniment.

Invents Weather Control

French Engineer Claims His Device Will Avoid Storms

The weather of the Atlantic soon may be controlled by radio.

M. William Loth, a French engineer, has perfected a radio control which he claims will make it possible for an inexperienced aviator to pilot his plane from Paris to New York without fear of running into bad weather. Similarly, ships could be navigated by sailors with no knowledge of compasses, sextants or weather maps.

Radio light beams form the secret of Loth's weather control, which has just been shown to the French Academy of Science. Through two land stations transmitting his weather radio waves, which are similar in principle to the Herzian waves, Loth says he can direct a ship or an airplane so that all bad weather can be avoided.

The water is so clear in the fords of Norway that objects an inch and a half in diameter can be seen distinctly at a depth of 150 feet.

He Asked Them Does It Pay To Clip Cows?

A CERTAIN farmer wanted to know the facts about clipping cows so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

Hawkesbury, "If short of help clipping reduces time necessary to keep cows clean—and must say since using the machine have not had any trouble with lice."

Jordan, "Before we clipped our cows we had a high bacteria count, whereas after we clipped them we had a very low bacteria count thus improving the quality of our milk."

Whitby, "And it certainly is a wonderful help in reducing lice."

Gadshill, "We find it much easier to keep them clean and free from vermin when clipped. To have clean milk you must have clean cows. We raise quite a number of heifers every year and in that way we always have a number of cows to sell. The clipping so improves the appearance of the cows that I think it easily adds 5 or 10 dollars to the value of an animal."

HOW TO CLIP COWS

Manure, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udders, underline, flanks and tail is kept clipped short all winter.

Lice seem to congregate along the spine, which explains why some farmers clip a six-inch width from tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work.

Stewart No. 1 Clipping Machine is easy to use and anyone can clip with it. Strong, sturdy, easy-running and will last for years.

At your dealer, \$15.00.

Satisfaction or money refunded.

WORLD HAPPENINGS
BRIEFLY TOLD

Quarterly returns indicated that Great Britain's births would exceed deaths by considerably less than 200,000 this year compared with 400,000 in 1920.

The U.S. National Geographic Society has announced it has granted an additional \$25,000 to Commander Richard E. Byrd for his Antarctic expedition. The society already had granted \$25,000.

An international conference looking toward the regulation of operation of trawlers in the fishing industry off the Canadian coast may be called at Ottawa next year, the Department of Commerce, at Washington, is informed.

Allotment of millions of dollars for construction of new cruisers and submarines will be considered by the U.S. House Appropriations Committee in January, regardless of the naval limitation conference beginning in London, England, that month.

Former Governor Alfred E. Smith, of New York, has revealed that the new Empire State building which his company is to erect on the site of the old Waldorf-Astoria hotel, will tower 85 stories into the air, thus soaring higher than any other structure in the world.

Brazil has agreed to accept a large percentage of the German-Russian refugees, some of whom are already in Germany, while others are awaiting opportunity to leave Russia. The peasants will be given refuge in Southern Brazil, where there are a number of German settlements.

Among the candidates whose names have come before the committee which will award the Nobel Peace prize is that of Frank B. Kellogg, former United States secretary of state and co-worker with Foreign Minister Briand in bringing about the famous Kellogg-Briand renunciation of war pact.

The council of the Chinese government has addressed an appeal both to the League of Nations and to individual signatories of the Kellogg-Briand peace pact to take steps to halt and punish the Russia Soviet "invasion" of Chinese territory. The invasion was termed a deliberate violation of the anti-war pact.

Persian Balm creates lovely complexions. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Alluringly fragrant. Delightful to use. Swiftly absorbed by the tissues, imparting that elusive charm so distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discriminating woman should use this silvery lotion. It is unrivaled as a flawless aid to beauty.

Flora Of Waterton Lakes Park

The prairie flora and the mountain flora meet in Waterton Lakes National Park in the southwest corner of the province of Alberta. Here, in the valleys, and on the lower eastern slopes of the Rocky Mountains, the wild flowers bloom in May and June. In July the higher passes are colourful with delicate blossoms of every hue.

There is a good deal in what a great philosopher has said, "The most utterly lost of all days is that in which you have not laughed."

Gripe

Heat and inhale Minard's. Also bathe the feet in Minard's and hot water.

W. N. U. 1814

Canada To Import
British West Indies Fruits

Fifteen Thousand Crates Of Oranges
From Dominica To Come Next
Year

"We expect to ship from ten to fifteen thousand crates of Dominica oranges into the Maritime and Montreal markets next year," declared Captain A. D. Robertson, of Dominica, B.W.I., who arrived at Saint John on the R.M.S. Lady Nelson, of the Canadian National Steamships, from the West Indies.

Captain Robertson, who took up the cultivation of oranges and grapefruit at Dominica as a hobby after the war, stated that there were excellent possibilities for the cultivation of citrus fruit on the Island of Dominica, and he said that at the Manchester Exhibition, the Dominica oranges and grapefruit captured first place over the California product. Eighty per cent. of his product consists of Washington navels, all grafted on sour orange stock. A unique feature of the Dominica citrus fruit industry was that on his estate he discovered several trees of Valencia, which had no seeds. He visualized great possibilities for the industry, which, in his opinion should result in Canadians obtaining their oranges and grapefruit at a lower price.

The backwardness of the development of the citrus fruit industry in Dominica, Captain Robertson stated, was due to the lack of adequate steamship services, but with the advent of the Canadian National Steamships, the industry was enabled to develop. He has associated with him in his enterprise, Mr. J. E. Knowlton, who accompanied him on his trip. The climate of Dominica, Captain Robertson declared, was delightful, with an average temperature of 75 degrees.

Captain Robertson was associated with the Gordons during the war, serving on the Bulgarian and Western Fronts.

Recipes For This Week

(By Betty Barclay)

MACEDOINE OF FRUIT

(Serves 6)

1 cup diced pineapple.
1/2 cup grapefruit cut in pieces.
1/2 cup apple cut in pieces.
1 cup orange sections.
1/2 cup confectioner's sugar.
Orange ice.

Combine the fruits and add sugar. Mix and chill thoroughly. When ready to serve put some of the fruit and syrup in an individual serving dish and place on it a ball of orange ice.

PLUM PUDDING

1 package chocolate junket.
1 pint milk.
1/2 cup raisins.
1/2 cup dates.
1/2 cup figs.
1 cup water.
1/2 cup sugar.
1 tablespoon lemon juice.
1/2 teaspoon cinnamon.
1/2 teaspoon clove.

Cut raisins, dates and figs in small pieces; add water and cook slowly until tender. Add sugar and boil until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses. Warm the milk until trifle more than lukewarm—not hot—remove from stove, and dissolve in it the chocolate junket. Add spices; pour over fruit, and let stand in a warm room until firm. Chill before serving. Top with whipped cream and maraschino cherry.

B.C. Whaling Season

Some 16,000 barrels of whale oil were produced during the whaling season at the two British Columbian plants of the Consolidated Whaling Company Limited, the result of operations of a fleet of six hunting vessels and a 250-ton tender. Among the 388 whales taken were a record number of sperm.

A Peculiar Plant

The plant coral-root has neither root nor leaves, being a cluster of underground stems and an upright branch which is a few inches high and bears a number of purplish flowers.

A new and hitherto unknown route across the Rocky Mountains has been discovered through a pass into British Columbia over the western boundary of Jasper Park, Alberta.

SUNDAY SCHOOL LESSON

DECEMBER 8

HELPING NEIGHBORS IN NEED

Golden Text: "Thou shall love thy neighbor as thyself."—Leviticus 19:18. Lesson: Matthew 25:31-46; Luke 10:25-37; James 1:27; 2:14-17. Devotional Reading: Luke 6:27-36.

Explanations and Comments

Service For Others Is Service For Christ, verses 34-40.—To those on His right hand the Judge will say, "Come ye blessed of my Father, inherit the Kingdom prepared for you from the foundation of the world." "The thought of God from the beginning looked towards those who by such conduct would inherit such reward."—R. H. Horton.

For I was hungry, and ye gave Me to eat; I was thirsty, and ye gave me to drink; I was a stranger and ye took Me in (I was harbored—harborless—and ye harbored—harbored—Me, is Wycliff's Version); naked (poorly clad), and ye clothed Me; I was sick and ye visited Me; I was in prison, and ye came unto Me.

The righteous are sincerely humble, and they ask when it was that they saw the King in need and helped Him. "Wordsworth speaks of the little, nameless, unremembered acts of kindness and of love that are the best portion of a good man's life. The acts of kindness were forgotten just because they were instinctive, but, Jesus emphasized the point, they are decisive; they come, as another of His telling phrases suggests, from 'the overflow of the heart,' and they reveal it."—J. R. Glover.

The Fate Of Those Who Fail To Serve Christ By Serving Others, verses 41-46.—To those on His left hand, the unrighteous, the King will say, "Depart from Me, ye cursed, into the eternal fire, which is prepared for the devil and his angels." The Greek word here translated "Hell" is "Gehenna." Gehenna was a field outside the city walls of Jerusalem to which the garbage and other refuse of the city was carried and burned.

"For I was hungry, and ye did not give Me to eat; I was thirsty, and ye gave Me no drink." "When?" they ask, and receive the answer, "Inasmuch as ye did it not unto one of these least, ye did it not unto Me." There are few things on which the New Testament is more severe in its condemnation than uselessness and self-centered living. The sin of doing nothing in a world of clamant need is a sin that is pilloried and branded with the utmost condemnation of Christ."—Charles Brown.

How One Failed To Be a Good Samaritan.—"Master, I have this day broken no law of the Ten—have hurt no one. Is it enough?"

"Child, there stood one by thy side burdened with heavy tasks of lowly, earthly labor. For a little help, a little easing of the burden, he looked to thee. Thou hadst time and strength."

"Master, I did not hear."

"Thine ear was dull. There came a guest to seek thy converse, a human friend in quest of fellowship. I marked them sigh, thy frown. Why was thy heart not glad?"

"I was reading, I hate to be dis-

Increase In Life Insurance

\$650 In Insurance For Every Man, Woman and Child In the Dominion

The total amount of life insurance carried by the people of Canada is at present about \$6,500,000,000 or approximately \$650 for every man, woman and child in the Dominion. The United States with \$750 per head of population is the only country in the world that exceeds Canada in the amount of life insurance carried.

The number of life insurance policies in force in Canada is 7,000,000 in round figures, or about three for every family in the Dominion. An encouraging fact about life insurance in Canada is that no one has ever lost a cent as a result of the failure of a Canadian life insurance company, which is principally due to the supervision of the Canadian Government Department of Insurance over the companies for the protection of policy holders.

Over \$300,000,000 is paid annually by the people to Canada in life insurance premiums. In the past 10 years the number of policies carried has doubled and the assets of the Canadian life insurance companies is placed at \$1,205,000,000.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitaria, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 130 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

TORONTO, ONT.

HUGE VOLUME OF GRAIN HANDLED BY WHEAT POOL

Winnipeg, Man.—Total handling of 253,102,585 bushels of wheat and 35,694,057 bushels of coarse grains is reported by the Canadian Wheat Pool in the annual report of the board of directors, issued here.

The gross turnover for the year amounted to \$288,097,071, a reduction from the previous year of \$35,000,000, largely accounted for in the carry-over of wheat which on August 31, 1929, amounted to 48,358,585 bushels.

Sales of wheat over the marketing period under review—1928-29—the report states, have been remarkably regular in view of the extreme conditions of the world's markets which had to be contended with. The carry-over was a result of the superabundance of supplies which could not be placed into consumption channels without demoralizing the world markets.

Deliveries to country elevators or over platforms in the western inspection division during the year ending July 31 last, were 475,711,628 bushels of wheat, of which 244,248,200 bushels were delivered to the Pool, or 51.3 per cent. of the total crop.

Dealing with the export trade the report shows that the Canadian pool shipped to 90 ports in 19 countries, a total of 108,140,608 bushels, the largest shipment being to the United Kingdom, 34,664,851 bushels.

No announcement of the final payment has yet been made, the report says, in view of the large carry-over on hand from last year. This is the first year that there has been such a carry-over. The only alternative was to have sold the crop at a price level that would have made the investment attractive to the speculator. Such an operation would, the report states, have an effect on new crop price levels which would be disastrous.

"The year as a whole has been one of many perplexities and grave anxieties," says the report. "The system upon which pool operations are based has, however, withstood every strain placed upon it so far, and has never functioned with more efficiency than in the past year of surplus supplies."

Millions For Good Roads

Saskatchewan Government Projects Six Main Highways In Province

Regina.—Saskatchewan's government will spend \$5,000,000 to improve highways of the province, according to a prediction made by Hon. C. A. Stewart, Minister of Highways.

Through this expenditure six main trunk highways would be completed with all-weather surfacing within a few years, according to Mr. Stewart.

At the same time Hon. J. A. Merkley, provincial secretary, told of plans to make a \$5 cut on every motor vehicle license issued in the province during 1930.

Reduction of motor licenses would amount to \$600,000, as about 120,000 motor vehicles are now in use in the province. At the same time this figure represents an increase of about 10,000 vehicles over last year's total. The government is, however, figuring on an increase in the gasoline tax to five cents. This jump from the present impost of three cents per gallon would mean additional revenue for the province of possibly \$1,000,000.

Two Killed In Railway Crash

Vancouver, B.C.—D. O. Watkins, of Jasper, engineer on an extra eastbound freight and fireman E. C. F. Bragg, of Edmonton, on a westbound fast freight of the Canadian National Railways, lost their lives as the result of a head-on collision four miles west of Jasper. Two other members of the train crews suffered minor injuries.

Racing Against Time

Quebec, Que.—Paul Paquin and Dick Lesage, trans-Canada canoeists, who left Vancouver on May 1, hope to complete their long voyage to Halifax, N.S., before the rivers through which they must travel freeze up, and are proceeding as fast as possible to their destination.

W. N. U. 1814

Deny Prison Plot Story

Statement Is Made That Nothing Is Wrong With Saskatchewan Penitentiary

Prince Albert, Sask.—"There is absolutely nothing wrong at the Saskatchewan penitentiary, nor has there been any trouble. We are not attempting to hide anything from the public. I give you my word of honor that all the many rumors concerning the penitentiary which have been circulated have no basis in fact."

This was the emphatic denial made by E. R. Jackson, Ottawa, inspector of penitentiaries in answer to a statement that an attempt to burn down the penitentiary had been frustrated in the nick of time; that wardens had found a pile of oil-soaked rubbish in a portion of the building which would easily take fire.

"Since I came here about a week ago, I have gone thoroughly into the matter. I found absolutely nothing to indicate a jail break was being plotted. There was no attack upon jail guards, as one rumor held. There was nothing, in a word, to arouse any suspicion that trouble was brewing here."

Mr. Jackson has no conception of how the report was circulated. As a matter of fact he says the building could not be burned as it is constructed of concrete and steel.

Clue To Whereabouts Of Missing Aviators

New Search Will Be Started For Eielson and Borland

New York.—A new search by land and air will be under way for Carl Ben Eielson and Earl Borland, who are lost somewhere in the ice field surrounding North Cape, Siberia.

Officials of the Aviation Corporation announced they had received the first definite clue to Eielson's whereabouts since he pushed his plane into a blizzard on Nov. 9, while flying to the rescue of the ice-locked ship Nanuk.

Graham B. Grosvenor received the following telegram from Frank Dornbandt, of Alaska Airways Inc., a subsidiary of the Aviation Corporation, at Teller, Alaska:

"Another dog team arrived from Koluchin and reported seeing smoke in the foothills 36 miles from North Cape. No natives in that district. Probably Eielson. Unfavorable weather and shortage of dog teams made immediate search impossible. Returning to search. Russian plane leaving from Providence Bay to seek Eielson."

Rolled Oats Mills Complain

Say Competition From United States Is Affecting Business Here

Calgary.—Rolled oats mills in Western Canada which invariably at this time of year have been running 24 hours a day, are closed down or are operating on part time as a result of the flooding of the Canadian market with rolled oats manufactured in the United States. Mills in Calgary, Moose Jaw, Winnipeg and Saskatoon are thus affected.

It is not a matter of dumping, so Canadian millers state; it is a matter of competition. Oats are so much lower in price in the States that the American millers can manufacture rolled oats, pay the duty of 60 cents per 80-pound sack, pay the freight and handling charges, and then undersell the Canadian millers.

The latter have submitted the matter to the federal government at Ottawa, but have been informed that nothing can be done until after parliament meets.

Had Miraculous Escape

Shipwrecked Mariner Turns Up Alive After Hope Had Been Abandoned

London, England.—A Maltese fireman named Attard, supposed to have been drowned when the steamer Molesey was wrecked with the loss of eight lives in a gale two days ago, created a sensation in a hotel at Milford Haven by a sudden appearance. He had remained secluded aboard the wreck until calmer water permitted him to scramble to shore over the great Milford Rock, which rises steeply from the water. His feat was considered a record one.

By chance a retired naval officer in a motor boat spotted Attard on the rock and took him off stiff with cold and almost exhausted.

BRITISH AMBASSADOR

Sir Ronald Lindsay, permanent under-secretary of state for foreign affairs and chief of the English foreign office, who is named as new ambassador for Britain at Washington, succeeding Sir Esme Howard. Copyright, 1929, Pacific and Atlantic Photos, Inc.

Sees Good Market In Asia

Canada Interested In Prospect Of Increased Exports From U.S.

Washington.—"The greatest potential market in the world," Asia, with its billion inhabitants will not be overlooked in the programs for the stimulation of foreign trade to be inaugurated by the Department of Commerce as part of President Hoover's plan for stabilizing business in the United States. The prospect of increased flow of exports from the United States to China and Japan is interesting from the Canadian viewpoint because commodities such as flour, lumber and autos are shipped through the British Columbia ports.

Great Britain, it is pointed out, has been in the Orient for a hundred years and thereby reaps great profit. A Canadian sidelight on the situation is the report from Ottawa of the proposal to establish steamship services from Eastern Canadian ports to India and British East Africa.

Alberta Old Age Pensions

1,188 Persons In Province Enjoying the Benefits Of Scheme

Edmonton.—When the checks from the Alberta Old Age Pension Board are distributed for the month of November, 1,188 persons will be included on the permanent roll of pensioners and for the four months during which the scheme has been in operation, nearly \$80,000 will have been disbursed among the aged in the province.

At the end of October only 853 persons were enjoying the benefits of the pension scheme but during the past month 335 permanent pensioners have been added to the rapidly increasing number. The board officers are dealing with an average of 100 applications every week and it is being found that the tendency is one of steady increase rather than abatement.

PROVINCIAL SWINE CLUB WINNERS, 1929

Winners of the Canadian Pacific Swine Club Competitions, photographed prior to their departure for Toronto, where they attended the Royal Winter Fair as guests of the Railway. They are shown above, with their respective provincial trophies and medals. Sitting, left to right: Bert Curry and Vance, Manitoba winners; George Thornton and Robert Hume, Saskatchewan winners; and standing, Hugh McLeod and Harry Naylor, British Columbia winners; William Douglass and Arthur Kriese, the Alberta winners.

Honors Were Divided

Saskatchewan and Manitoba Win With Clydesdales At Royal Fair

Toronto.—Saskatchewan and Manitoba kept the west to the forefront in the Clydesdale classes at the Royal Agricultural Show, each province winning a championship for stallions. The exhibitors from these two provinces won many other awards. University of Saskatchewan being awarded among other wins, first and fourth for three get-of-sire and two animals progeny of dam. It was Manitoba Day at the Fair, and the province celebrated the occasion in appropriate fashion.

Manitoba's great triumph was the victory of Arnprior Emigrant, the stallion which was awarded the Carls-Rite and Walker House trophy, the finest trophy offered at any Canadian exhibition for best Clydesdale stallion in the show. This is the second time that this horse, owned by the Reston Horse Syndicate, has won the trophy and the fourth time in the eight years that it has been competed for that it has gone to Manitoba. Saskatchewan has won it three times and Ontario once.

Railway Earnings Less

Small Movement Of Wheat This Year Reflected In Reduced Revenues

Truro, N.S.—S. J. Hungerford, vice-president of the Canadian National Railways, who is here on a tour of inspection, said that "the wheat situation this year will seriously affect the earnings of railways in Canada. The movement of wheat this year does not exceed 25 per cent. of the movement to this time last year," Mr. Hungerford said, adding that the future of the situation was problematical.

Because elevator space throughout the West and at the head of the Great Lakes is well filled with storage wheat, Mr. Hungerford did not think there would be any considerable shipments for some time. A feature of the 1929 grain transportation, he said, was the movement West via Vancouver. Fully 20 per cent. more wheat has left the country by that route than for the corresponding period in 1928, thus decreasing the tonnage shipped via Atlantic ports of Portland, Me.; Boston, St. John and Halifax.

Congratulations For Minister Of Finance

Hon. C. Dunning Receives Messages From All Over Dominion

Ottawa, Ont.—Hon. Charles Dunning, Western Canada's first Minister of Finance, has been deluged by a flood of congratulatory messages.

These messages came not only from the West but from every province of the Dominion. The first message he received was from an old friend in Halifax. The early hours this morning brought scores of telegrams from Quebec, Montreal, Toronto, Winnipeg, Regina, Saskatoon, Calgary, Edmonton and Vancouver. There were, in addition, innumerable messages from country points in Saskatchewan.

NEW PLANES ARE PURCHASED FOR AIR MAIL SERVICE

Vancouver.—Purchase by Western Canada Airways, Limited, of six combined mail-passenger planes for use on the Winnipeg-Banff air mail service has been announced here.

Three of the mail planes, which are required for immediate delivery, will be built in Seattle, while the others will be built in Vancouver.

The type of plane selected by W. L. Brinell, operations manager of Western Canada Airways, in Winnipeg, has a cabin for four passengers and a mail capacity of 500 pounds. Planes of this type have been flown over the Chicago-San Francisco air mail routes in the United States for the past two years.

All planes will be equipped for night flying, as it will be necessary for Western Canada Airway pilots to do a large portion of the route at night. A full day will be cut from the trans-continental mail schedule by the service which will start about the middle of December, mail taken off the train at Winnipeg overtaking at Banff the train which left the east 24 hours earlier.

Between Winnipeg and Calgary, the planes will fly by way of Regina, Moose Jaw and Medicine Hat, while between Regina and Edmonton they will go by way of Saskatoon. Fields with night flying beacons and landing lights are being installed near Medicine Hat, Alderson, Brooks, Bassano, Namaid and Calgary.

The planes are powered with 525 horsepower engines, have a high speed of 135 miles per hour and cruise at 115 miles per hour fully loaded. They have a landing speed of 57 miles per hour and climb 800 feet per minute to a service ceiling of 15,100 feet. They carry 140 gallons of gasoline and 20,000 average letters in addition to four passengers.

Post office officials report that Canmore-Vancouver air mail route is now under way, the intention being to open this division during the summer of 1930.

Britain Prepared To Help Settle Troubles

Willing To Join In Attempt To Settle Russo-Chinese Dispute

London, England.—Great Britain is prepared to participate with other powers in joint action to bring the Russo-Chinese dispute in Manchuria to a successful termination if such action proves possible.

Right Hon. Arthur Henderson, foreign secretary, made this reply to a questioner in the House of Commons. He said he would consider whether Great Britain should take the initiative with the other powers.

Mr. Henderson told Sir Austen Chamberlain, his Conservative predecessor at the foreign office, that communications had passed between the United States and British governments with reference to the possibility of joint action in Manchuria. The question had been discussed in the early days of November.

"I think that since then no further communication has been received, but I think a communication has come through a telegram from another government, and if joint action can be taken we are prepared to participate."

Canadian Flying Club Formed

Montreal.—The Aero Club of Canada has been formed here as result of a meeting of the Hangar Club of Montreal, when Col. J. Scott-Williams was elected president. The purpose of the club is to promote interest in flying throughout Canada and to furnish a meeting place for all the ex-officers of the Air Service and for those directly connected with aviation.

Air Mail Popular

Saskatoon, Sask.—Indicative of the widespread interest in the trans-prairie air mail service, 8,000 letters have been received at the post office here for delivery on the first planes to leave this city. The letters are from all parts of Canada, the United States, the British Isles and one package is from the Bahamas.

North Carolina is establishing a Hall of Fame of historic trees.

ALBERTA ADVISORY WEED BOARD

(Department of Agriculture)

At a meeting of the Alberta Advisory Weed Board held in Edmonton a review of the past year's activities of the Board was presented by Mr. W.J. Stephen, and in the discussion which followed plans were laid for the continued work of the Board during 1930.

It was decided that the campaign known as "Weed Week" carried on last season might be put on at the same time as "Better Seed Week" in the spring of 1930. The Board also recommended that a Weed Inspector's Course be held again at the University early in 1930.

The suggestion was adopted that a number of field supervisors be engaged

for a period of six weeks commencing early in January next to hold weed meetings throughout the province.

A number of amendments is existing weed legislation were considered and will be passed on to the government as recommendations from the Board.

A comprehensive report was presented by W. G. Smith who, under the Supervision of Mr. W. J. Stephen, has been in charge of an exhaustive series of experiments for the Department. These were conducted at various points in the province the past season to determine the effectiveness of a number of the chemical weed killers which have been placed on the market. After hearing this report and as a result of their own experiences along this line, the members of the Board unanimously adopted the following resolution which may be considered the official statement of the Department of Agriculture on this question.

"BE IT RESOLVED that we as members of the Alberta Advisory Weed Board, after reviewing the series of experiments conducted during the past season by the Department of Agriculture, go on record as being of the opinion that certain chemicals which are now on the market in this province have a definite value as a control measure in checking the spread of noxious weeds.

We are further of the opinion that, so far as can be determined by these experiments, those chemicals which contain chlorates as the active principle are more effective than those of which the active principle is one of the sulphates, nitrates or chlorides. We feel that the use of chemicals containing chlorates can be recommended as a control measure on patches of perennial weeds where cultivation is difficult, or on patches found on ditch banks, around lakes, on road allowances and in general on waste places where cultivation is impossible. We are of the opinion, however, that where thorough cultivation can be carried out, the use of chemical weed destroyer is more expensive and less effective."

NO USE TRYING TO GET RID OF THE OLD BUGGY

Motor cars will soon be listed with safety razors and liquor bottles as among the most difficult things to get rid of when they've outlived their usefulness. In New York, or at least in that portion of the metropolis known as Queens, there's no chance of a fellow abandoning his car. A special police guard patrols the streets and when it looks as if you and the faithful transportation are about to break company in those parts, the police patrol comes right along to find out all the why of your sudden decision to abandon the gasoline friend. Who knows but that you may have to sue for divorce from your motor car if you show disposition to run away. It is not legal to desert wives or automobiles.

We Print

Letterheads, Note Heads, Envelopes, Loose Leaf Account Forms, Statements, Bill Heads, Tax Receipts and Notices, Firm Cheques and Vouchers, Mine Forms of all Descriptions, Cards, Tickets, Posters, Auction Sale Bills, Etc. In fact everything that is printable, we can print.

The Carbon Chronicle has printing equipment equal to most of the large city shops and is capable of turning out work of quality and distinction at reasonable prices. This is all that you can ask and we are making a bid for ALL your printing requirements.

We are capable of doing the work. You can at least give us a trial before going to outside concerns for your printing matter.

A BUYING GUIDE!

BEFORE you order dinner at a restaurant you consult the bill-of-fare. Before you take a long trip by motor-car, you pore over road maps. Before you start out on a shopping tour you should consult the advertisements in this paper. For the same reasons!

The advertising columns are a buying guide to you in the purchase of everything you need—including amusements! A guide that saves your time and conserves your energy; that saves useless steps and guards against false ones; that puts the s-t-r-e-t-c-h in family budgets.

The advertisements in this paper are so interesting, it is difficult to see how anyone could overlook them fail to profit by them. Just check with yourself and be sure that you are reading the advertisements regularly—the big ones and the little ones. It is time well spent always.

AVOID TIME WASTING, MONEY WASTING
DETOURS ON THE ROAD TO MERCHANDISE
VALUE. READ THE ADVERTISING "ROAD MAPS."

SUNSHINE NEEDS AID IN RELIEVING DISTRESS

An organization which is working twelve months in the year and particularly during the cold weather months to help those in distress is the Calgary Herald Sunshine Santa Claus Fund. Every year at this time an appeal is made to contribute to the fund and assistance is sought, not only in the City of Calgary, but throughout the province for the reason that the Sunshine Society helps to relieve suffering in various parts of Alberta, as well as in the City of Calgary. Sunshine has been functioning for eighteen years and in that period has relieved the distress of thousands.

It is a good thing for Alberta that such an organization exists because there are many cases which cannot be assisted through official sources and yet, if the cases are not helped, the suffering would be intense.

Those who are in the happy position where their lives are comfortable are invited to consider the plight of those who lack the common necessities of life and are invited to show their warm-heartedness through the me-

dium of contributions to the Sunshine Society.

TWENTY-SPEED TRUCK DISCOVERED

One Alberta truck driver can afford to laugh at the introduction of "four-speed" gears, for his remarkable vehicle has no less than 13 gears forward and seven reverse. It is powered by a 1917 McLaughlin-Buick motor which has piled up well over 150,000 miles of driving in Western Canada in its original passenger chassis before being fitted into the 3½ ton truck where it is now used. Ahead of the regular truck transmission the owner has installed the McLaughlin-Buick transmission.

The result is that there are two gear levers. Changing gears, for one not accustomed to the phenomenon, is said to be something like figuring out a crossword puzzle each time. For example, if the lowest and most powerful speed is desired the driver must shift both gear levers into reverse. Double high is a case of "Hold on tight."

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrel, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child Al adores and sail for France. Al, completely broken by his loss, disappears from Broadway and becomes a derelict. One day the sight of Grace Farrel on the street arouses old memories. He returns to Blackie Joe's at night, talking to Blackie in his office until Blackie is called outside by a patron.

CHAPTER XXIV

Blackie crossed the main room briskly to shake hands with the departing patrons and urge them to come again. But as he talked his mind was working on Al's problem. Suddenly he reached the conclusion that Grace Farrel was the logical one to approach Al. She might reach his hidden nature and revive his courage when no one else could.

Grace worked at a desk in an alcove on the other side of the main room. A screen concealed her view of the room and she had not seen Al and Blackie cross the floor. Now she had just completed her accounts for the day. She was decidedly sleepy, but her eyes opened wide when Blackie stood before her. From his expression she realized that something important had happened.

"Guess who's here?"

"Who—Blackie? Not—not Al?"

"The same. Just wandered in a few minutes ago—looks as if he'd been sleeping on the wharves for a month."

Grace's hand darted to her cheek and pressed hard against it. So, it had happened, the thing she had dreamed of and worked so hard to bring about. Al was found!

"Listen, girlie." Blackie leaned forward confidentially. "He's in my office. I've talked to him, tried to make him stage a come-back, but I can't make a dent. He just shakes

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so rundown and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1814

his head. Now you try. Treat him rough, bawl him out, if you think it'll work."

Grace rose. She was listening, concentrating, planning. Every life has at least one big moment — that's what to be hers! The soul and future of a talented, lovable man was at stake! As she planned she prepared for the big moment in a feminine way — patting her hair into shape, rearranging a stray curl, examining her lips in a mirror. Then she turned determinedly toward the private office.

Blackie stood in the main room, staring after Grace as she walked toward the office. He decided to stay away from Al for a few moments and let Grace work alone.

Meanwhile, Al had been growing restless. After he looked about Blackie's office for a while, carefully studying the familiar pictures on the wall, his nervous tension made him want to jump up and leave. But as he stood up, determined to walk out, he saw Blackie's old piano in a corner of the room, behind the desk.

He walked slowly toward it. Yes, it was the same old battered instrument; he had composed some of his early hits while sitting in front of it. Without thinking, he ran his hands lightly up and down the keys. What fingers! They were stiff, grimy, bruised, sore. Their play across the keys was painful and slow, yet in the old days they had danced up and down the scale in nimble ease. . . .

Al looked up, hearing a faint sound, and turned his head. Grace stood in the doorway.

Grace had entered as quietly as possible; she wanted to study him before he saw her, for she knew that in that flash second her intuition might give her a clue as to the best way to proceed with him. Now, as he stared up at her with startled eyes, his really pitiable condition was accurately revealed. She answered his stare with an expression of tender sympathy.

"Al?" she whispered softly.

"Grace! Why, it's really you!"

For a moment she thought he would cry. He seized her hand in both his own and gazed steadily down into her eyes. His grip was so hard that it numbed her fingers; she felt he was literally clinging to her to save himself from breaking down. All the force of her deep maternal spirit was directed toward him; she longed to take him in her arms and comfort him.

"You've changed a lot!" he exclaimed in astonishment.

Grace refrained from saying he had changed too.

"Have I?" she questioned brightly. "Well, I've grown older, for one thing."

"You're much more beautiful than you were," he continued earnestly. "And you were always a winner."

Again Grace smiled, and deftly turned the conversation. "How have you been, Al?"

He glanced down at the frayed cuffs of his coat sleeves. "Judge for yourself." He grinned ruefully.

"But, Al, you don't have to look like that. You have money."

"Yes, but I don't want it—I don't use it."

Grace waited a moment. She had the same sense of the passive barrier of despair between Al and her that Blackie had felt. Yet there must be a way to cross that barrier! She said firmly:

"Blackie tells me you mean to stage a come-back."

Al shook his head. "Blackie's wrong." But as he said that the young song writer glanced away; he was ashamed to face Grace. Quick as a flash Grace saw the move and thought: "If he isn't past shame, there's hope."

"Listen, Al," she said. "You have the gift of song. Millions of people are made happy by the things you write. Do you think you have any right to crush that gift and turn your back on all those people?"

"That's just preaching, Grace. A man in my situation has a right to live the way he pleases, providing he doesn't hurt any one. I don't hurt anybody."

"Yes, you do."

Al shot an astonished, questioning look at Grace.

"You hurt me, for one person," she said gravely. "Of course that doesn't matter. But you hurt someone else—hurt him terribly. You hurt your son, whom you love. What will he think when he grows up and learns that his father drifted downward, allowing himself to become an utter failure!"

Grace's voice had risen to a pas-

Peps

For COUGHS, COLDS & BRONCHITIS

sionate ring as she concluded. It was a terrible ordeal for her to talk in this accusing way to Al, but his case needed it. Blackie had said, "Treat him rough." Grace saw that only drastic treatment would arouse him.

Al winced visibly and reached toward the piano for support. He couldn't believe his ears—gentle Gracie talking to him this way! Her eyes were like steel.

"Junior will never know about me," he answered defiantly. "No one will tell him. He'll grow up believing I disappeared and died in some unknown place. That is what is going to happen to me. He'll never see me as you see me now—a bum!"

Then Grace played her strongest card. "Yes, he will know about you!" she cried, with blazing eyes. "I'll see to it that he does know! I'll tell him!"

"You'll — what?" Al's mouth dropped in wonder; anger began to gather in his eyes.

"I'll tell him—everything about you! How you look at this moment, how you ran away from everybody who wanted to help you, how you became content to drift downward to the dregs of life. I'll see that he knows everything about you, Al Stone! Don't forget it!"

Al believed Grace meant what she said. He staggered for a moment, then crouched and began moving toward her, a hateful look in his eyes. Grace saw his fingers twitching, eager to get at her throat, but she did not give an inch as he approached.

"If you do that," he whispered with deadly softness, "I'll kill you!"

(To Be Continued.)

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

French Museum Gets Cedar Grizzly Bear

Primitive Work Of B.C. Indians To Find Place In Old World Collection

A grizzly bear carved out of a tree, a piece of primitive but magnificent Canadian art, is now on its way to Paris, to be studied and admired. The grizzly bear of Niskinwak, telling in its nine figures with wide staring eyes and grinning mouths, a strange and thrilling tribal story, is the gift of the Canadian National Railways to the Trocadero Museum. It will be given a place of honor in the ethnological section of the museum, in the hall devoted to the Indians of North America. This hall is being reconstructed by Paul Coze, French painter and expert in Indian art and customs. Mr. Coze spent part of last summer at Kitwanga and Hazelton, B.C., where the best of Canada's totem poles stand in their native setting.

T. B. Campbell, Canadian National Railway engineer, who has for several years been engaged in the work of restoring and preserving totem poles in the Skeena River Valley and along the coast of British Columbia, procured the grizzly and arranged for its shipment to France. The pole stands twenty feet tall.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has even known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it today from your dealer.

Soviets Pass Drastic Law

Russians Refusing To Return To Country On Call Are Declared Outlaws

Hereafter Soviet Citizens working or residing abroad who may refuse to obey the summons of their government to return to Russia will be adjudged guilty of treason. When finally taken into custody they will be sent to prison and shot within 24 hours after identity is established.

This drastic measure was taken by the central executive committee of the Soviet Union in the light of the recent refusal of M. Bessodovsky, of the Soviet embassy at Paris, to return to Moscow to face trial on charges of embezzlement.

The new decree is retroactive and declares that all such Soviet citizens will be classed as outlaws and deserters, and as enemies of the workers and peasants. All their property will be confiscated and their cases tried by the supreme court of the union and their names broadcast as outlaws.

**WILLIAM CURRAN FOUND GUILTY
ON MANSLAUGHTER CHARGE**

William John Curran was found guilty at Drumheller last Saturday of Manslaughter in connection with the death of William Ruddy who was killed in the automobile accident near Rockyford on May 1st. The Jury, after sitting seven and one half hours, brought in a verdict of guilty with a strong recommendation for mercy. During their lengthy consideration they were brought back twice for further instruction as to the law on different points. The jury were polled individually and all agreed with the verdict rendered by the foreman.

Mr. Justice Boyle concurred with the jury on their verdict and said he would bear in mind their recommendation for leniency. He added that there had been a great many motor accidents, which had resulted in loss of life or limbs, through the driver being intoxicated. He considered that two years suspended sentence and a fine of \$500 or in default, three months imprisonment, and cancellation of Curran's auto driver's license would meet the requirements of the case.

The jury was comprised of Frederick Langford, Herbert Ridley, Elmer Daly, Melville Richardson, Andrew Gibb, S. N. Wright, W. J. Ross, T. Notland, G. F. Fisher, Chas. A. MacKinnon, Wm. Rennie and F. Bessant.

Curran himself was the important witness. He claimed that he could remember everything on the day of the accident, from the time he left Calgary until the accident, but he could not remember anything after that until arrested by Constable Moriarity of Carbon. Other witnesses testified to the sobriety of the accused and the Crown Prosecutor, J. J. Fraley went over the evidence and submitted that Curran was drunk when the accident happened.

Curran was given one month's time in which to pay the \$500 fine.

DRUMHELLER MUSICAL
FESTIVAL TO BE HELD ON
FEBRUARY 25TH AND 26TH

A copy of the Syllabus for the Drumheller District Musical Festival has reached us this week. There are fifty-one classes listed for choirs, quartettes, trios and duets, vocal solos, pianoforte and violin classes and elocution. Small orchestras and instrumental trios are not overlooked and it is apparent that the directors have attempted to cater to every age from the primary to accomplished singers and instrumentalists.

The test pieces selected are exceed-

**Who Does Your
Printing?**

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
